

# Circumvent® PCV

Porcine Circovirus Vaccine, Type 2, Killed Baculovirus Vector  
*As an aid in the prevention of viremia and virus shedding caused by Porcine Circovirus*

The only approved two dose regimen  
– it makes a difference

- PCV2 vaccine for use in swine 3 weeks of age or older.
- 2 mL intramuscular dose, given twice for optimal immune response.
- High protective antigen content in each dose from advanced vector technology for maximum immunogenic response.
- With Microsol Diluvac Forte® adjuvant for optimal immune response.
- Proven to significantly reduce PCV2 viremia and shedding.
- Proven effective, even when pigs were co-challenged with PRRS virus.
- Proven in field studies to significantly reduce mortality, reduce medication costs and improve growth performance.
- Two dose regimen affords greater administration compliance and predictable results.
- Titer response: Produces IFA and ELISA detectable titers.

# Circumvent® PCV

Aids in the Prevention of Viremia and Virus Shedding  
caused by Porcine Circovirus Type 2

## Circumvent® PCV Porcine Circovirus Vaccine, Type 2, Killed Baculovirus Vector

### INDICATIONS AND CONTENTS:

For use in healthy swine, 3 weeks of age or older, as an aid in the prevention of viremia and virus shedding caused by Porcine Circovirus type 2. This product contains a killed baculovirus vector carrying protective antigen against PCV2 in Microsol Diluvac Forte® adjuvant.

### DOSAGE AND DIRECTIONS:

Shake well. Inject a 2.0 mL dose intramuscularly into healthy pigs 3 weeks of age, or older, using aseptic technique. Inject a 2.0 mL booster dose three weeks later. Animals retained for breeding purposes should be given a booster dose semiannually.

### CAUTION:

Store refrigerated at 35° - 45°F (2° - 7°C). Do not freeze. Use entire contents when first opened; do not save partial contents. Burn the containers and all unused product. Use only in healthy swine. Do not vaccinate within 21 days of slaughter. If allergic reaction occurs, treat with epinephrine. Contains gentamicin and thimerosal as preservatives.
